

INTRUST ADVISORS ACTIVE HEDGE OVERLAY SOLUTION

The IA Active Hedge Overlay can protect an existing portfolio when times are tough and enhance returns when times are good.

Strategy Benefits

- Works with a current long only client portfolio or one managed by InTrust
- Provides protection in bear markets
- Enhances returns in upwardly trending bull markets
- Customized to fit beta (volatility) of existing portfolio and deliver full or partial protection
- Low cost
- Better long-term solution than option puts or collars
- Complete transparency and liquidity

This is not insurance in the traditional sense that you must pay for something that you may never use. It will add value to the portfolio in both up and down markets.
